Dynavision Advanced Item & Price Import ★ Save to my list

Overview Ratings + reviews

Import Microsoft Excel lists straight from your vendors or suppliers

Stop juggling csv files and stop flexing your Microsoft Excel muscles to import price lists and item lists. The Dynavision Advanced Item & Price Import lets you import these lists straight from your vendors or suppliers into Microsoft Dynamics 365: Business Central without the need to manipulate or reformat them first in Excel. Free end-users from the multi-file rapid start horror when it comes to price & item import.

Receive the list, run it through this app and manipulate it right in Business Central. Then save your touch-ups in a template for when you receive an updated list so you don't need to do that all over again. Easy!

You're wondering if it can handle the crazy excels you're receiving from your suppliers? Well we've thrown some pretty complex multi tab, multi worksheet, multi header, multi group, multi row templates at it! And we added some powerful data transformation functions right in the app.

 - Apply transformation rules (e.g. round prices, trim values, convert measures, ...)
 - Define value mappings like countries, item categories, attributes, ...
 - Create your own 'calculated columns'
 - Convert from row to multiple tables
 - Fully configurable support from custom fields or 3rd party tables
 - Search & match using conditions
 - Check on import, create or update items, create or update purchase prices
 - End purchase prices from the previous period

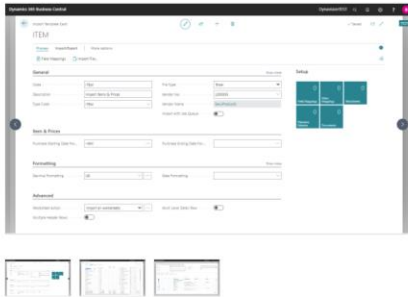

Supported countries:

This app is available in: All countries where Microsoft Dynamics 365 Business Central is available.

Supported Languages:

The app is available in Dutch (Belgium), English (United States), French (France).

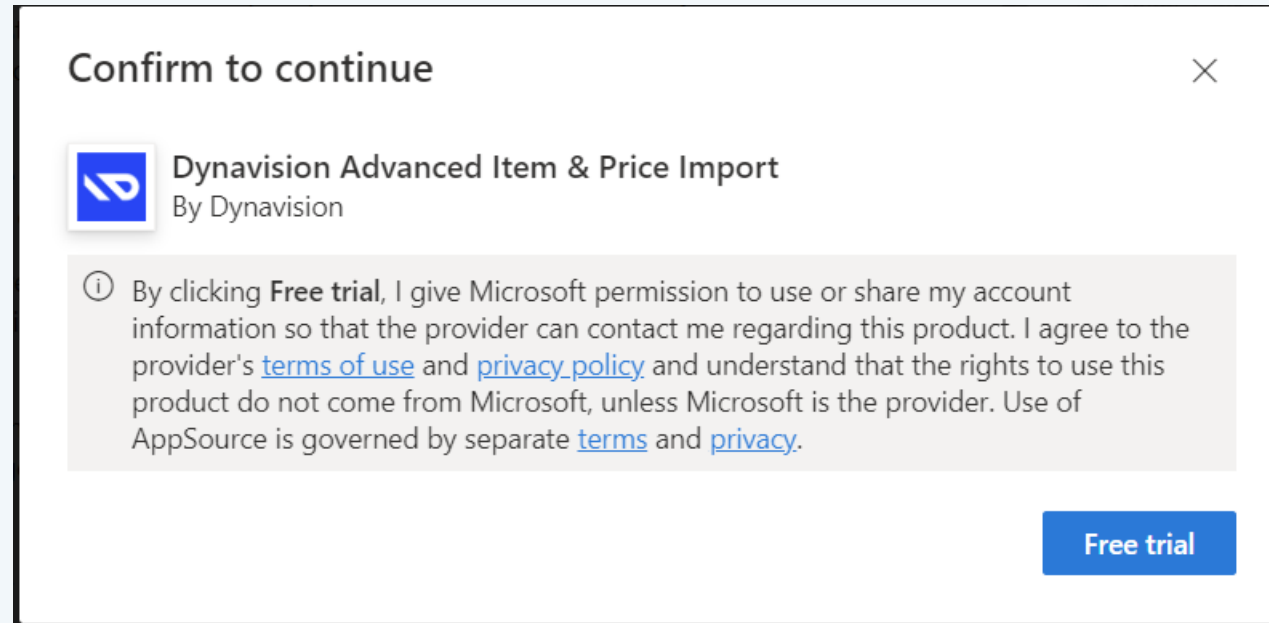

Contact info@dynavision.be for additional languages.

Getting Started – install Free Trial

- Confirm the installation:

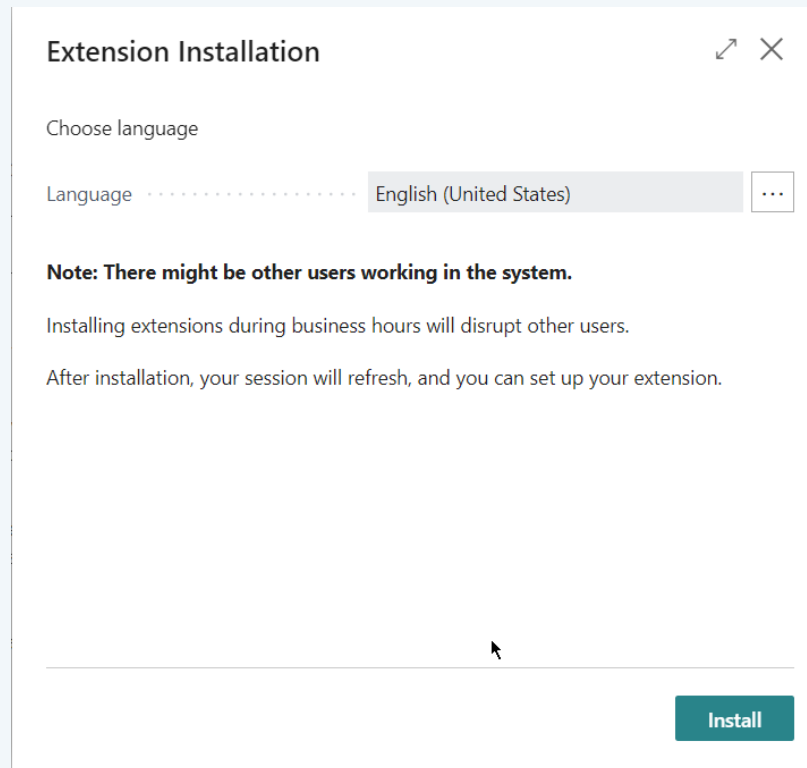

Getting Started – install Free Trial

- The installation is starting:

Getting Started – install Free Trial

- The installation in BC starts.
- select your language and confirm:

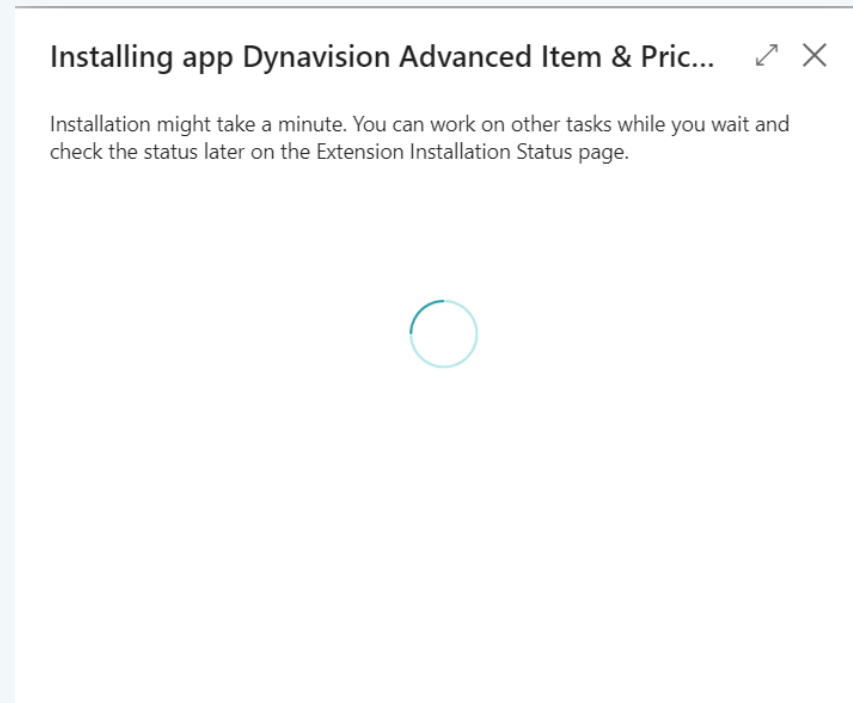

The screenshot shows a dialog box titled "Extension Installation" with a close button (X) and a refresh button (circular arrow) in the top right corner. Below the title, it says "Choose language". There is a label "Language" followed by a dotted line and a dropdown menu showing "English (United States)" with a three-dot menu icon to its right. Below this, a note states: "Note: There might be other users working in the system." followed by two lines of text: "Installing extensions during business hours will disrupt other users." and "After installation, your session will refresh, and you can set up your extension." At the bottom right, there is a teal button labeled "Install". A mouse cursor is visible near the bottom center of the dialog box.

Getting Started – install Free Trial

- The installation in BC is running:

Getting Started – Activate Free Trial

- **Production environment:**

- **Always** activate Free Trial (see next slides)
- If the app has been ordered at finance@dynavision.be, this Trial License will be activated the coming days
- You can immediately start using the app
- The activation can be done for multiple apps with 1 action
- Installing additional apps at a later stage might require an additional activation for the new app

- **Sandbox environment:**

- **No** license is needed, hence no activation is required

Getting Started – Activate Free Trial

- Navigate to “**Dynavision Setup**”
- Execute “**Activate Trial**” in the menu

Getting Started – Activated Licenses

- The license information is synced daily (with the first login of the user)
- If required, the action “**update licenses**” on the Dynavision setup can be used to sync the information instantly
- If an order is placed at finance@dynavision.be the “active until” will be updated by 1 year (with automatic yearly renewal)

The image shows a screenshot of the 'Dynavision Setup' interface. At the top, there is a navigation bar with a back arrow on the left and icons for edit, share, add, and delete on the right. Below the navigation bar, the title 'Dynavision Setup' is displayed. A horizontal menu contains links: 'Terms and Conditions', 'Browse Dynavision Apps', 'Update Licenses', and 'Get Default Data...'. To the right of these links are dropdown menus for 'Actions', 'Related', 'Automate', and 'Fewer options'. The main section is titled 'Contact Info' and contains four input fields arranged in a 2x2 grid. The first row contains 'Company Name' with the value 'Customer Company Name' and 'Contact Email' with the value 'email@customer.com'. The second row contains 'Contact Name' with the value 'Customer Contact Name' and 'Partner Name' with the value 'Dynavision'.

Review title
no more rapid start

Review description
no longer needed to manipulate excels with VLookups, import the excel directly. Masterdata and price can be imported directly to different BC tables.

☒ I agree to have Dynavision email me at admin@CRMbc854056.onmicrosoft.com about my feedback.
